Line 000: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 001: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 002: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 003: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 004: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 005: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 006: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 007: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 008: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 009: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 010: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 011: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 012: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 013: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 014: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 015: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 016: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 017: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 018: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 019: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 020: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 021: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 022: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 023: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 024: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 025: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 026: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 027: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 028: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 029: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 030: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 031: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 032: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 033: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 034: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 035: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 036: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 037: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 038: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 039: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 040: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 041: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 042: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 043: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 044: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 045: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 046: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 047: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 048: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 049: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 050: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 051: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 052: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 053: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 054: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 055: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 056: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 057: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 058: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 059: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 060: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 061: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 062: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 063: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 064: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 065: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 066: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 067: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 068: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 069: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 070: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 071: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 072: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 073: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 074: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 075: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 076: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 077: bounded extraction keeps the original text sequence and units 12.35 kg.
Line 078: bounded extraction keeps the original text sequence and units 12.35 kg.
